Northan Toomer (colored), who married the negro daughter of Dixon, the great Georgia cotton planter, and who is worth \$300,000, is visiting relatives in Chatham county. He was born there fifty-three years ago, and at the age of 13 was sold to Judge Toomer, who gave him unusual advantages. Nathan was faithful during the war and afterwards, until his imaster's death. He made money rapidly. He is the richest native of Chatham. He is as polite to the kinsmen of his "old massa" as he was in the days of siavery. He goes to New York to live and invest his money, having sold his Georgia property.

The hearing of the Atlantic and North Carolina Railread Company in reply to the demands of the United States Government in regard to the draw in the Trent-River bridge came off to-day at the office of Assistant-Engineer Chadbourn. before Major Stanton, United States Engineer. Affidavits were handed in by the company's counsel and no argument submitted. Major Stanton will make up his decision, which goes up to the Secretary of War for review before being given out to the public.

The removal of the draw will entail con siderable expense on the company, but the nevigation of the water-course is of great importance and the matter will be thoroughly inquired into by the officers in

BURSTING OF A STEAMER.

Two Machinists Hurt While Testing a Cotton-Seed-Oll Mill.

Cotton-Seed-Oil Mill.

The bursting of the steamer of a cotton-seed-oil mill at the Cardwell Machine-Works, on Cary streetl near Fifteenth, yesterday morning was attended with serious results. Two men were quite badly hurt, and a third barely escaped being struck by a piece of metal weighing several hundred pounds. The cause of the accident appears to have been an over-pressure of steam, due to a defect in the steam-gauge, which failed to register the quantity of steam forced into the vessel. A test was being made of a cotton-seed-oil mill before shipping it.

Mr. Ed. H. Scott, the foreman, was holding the gauge and David T. Pulley, a machinist, was assisting him, when the iron lid of the vessel, weighing 1,500 pounds, bursted in pieces. A small piece of the flying metal struck Scott upon the head, inflicting an ugly gash, and Pulley was severely scalded by steam. Portions of the ceiling of the room were shattered into splinters.

The ambulance was summoned and the wounds of the sufferers dressed, after which they were taken to their hames.

The men are quite painfully though not dengerously injured.

Mr. George A. Freely, a clerk in the works, narrowly escaped being struck by a huge piece of iron.

The explosion created a loud report, which was heard some distance away.

and is believed to have been put in the house through a transom. Two others are thought to have had a hand in this offence, and the officers are looking for them. Lewis was sent on to the grand jury of the Hustings Court.

Harry McFarland (white) and Edward Broach (colored) were up as suspicious characters. The former was discharged, but as the latter had been heard to say while sitting on the bridge at the fredegar Works that he had cut a man in Washington and left, he will be held until August 8th.

Dinner to Mr. Thompson. Messrs. J. S. Barbour Thompson and Beverley B. Munford left the city hat night for Culpeper county, where a din-ner will be given the former gentleman in new 4 per cents. Remarkably few old bonds have come in during the past six or seven years.

The North Carolina Teachers'-Association party which leaves here August 1st, under Secretary Harrell's management, will, he tells me, travel in a vestibuled train of eleven cars, of which four will be sleepers, and will go ria Charlottesville over the Chesapeake and Ohio. It will stop that evening for an hour at the Greenbrier White. The party will return in the same train. August 8th the Sonboard Air-Line will have a teachers' excursion also.

Limb Raw as Beef and Red as Beet. Pain, Burning, and Itching Ter-rible. Not 5 Hours Sleep in 3 Days. Makes One Applica-

tion of Cuticura and in 5 Minutes is Asleep. A Remarkable Case.

About two years ago I was confined to my room with a breaking out on my keg which my physician pronounced Eczema. About three weeks ago the same disease broke out again on the same leg, and my physician has been attending me regularly, calling from once to twice daily, the sores all the time getting worse. A friend called to see me, and brought about one half teaspoonful of CLITCHA, advising me to try it, telling of himself, brothers and mother having been cured by it. I would not try it at first, although I had been on crutches for over two weeks, and at one time I counted between twenty-five and thirty suppurating sores, and had not slept more than five hours in three nights. Monday morning about four o'clock the pain, burning and Inching became so severe that I determined to try CUITCHA, thinking that if it did no good, it could not make my beg much worse, for it was as raw a pulse of best and as red as a best, so I not make my common as a piece, so I applied the CUTICERA, and in five minutes after I haid down I was asleep. Next day I sent and got a box of CUTICERA, and I'll pledge my honest word I would not take \$100 to-day for it, if I rould not get another. I commenced using CUTICERA Monday merning about four o'clock, and to-day (Tuesday) my leg is mearly well, notwithstanding I had not walked a step without my crutches in two weeks. My gratitude to the man who first compounded CUTICERA is profound. May God biess him. found. May God bless him.
